Commission

2021 EU Conference on modelling for policy support

22 - 26 November - *online event*

Programme at a glance

22.11 Monday

23.11 Tuesday

24.11 Wednesday

25.11 Thursday

26.11 Friday

09
30

KEYNOTE 1
Modelling for the emergency: the Earth4All experience

KEYNOTE 2
Economic models and the COVID-19 pandemic

KEYNOTE 3
Modelling tools for policy support in (real) time of crisis

SESSION 6
Multidisciplinary approaches, integrated assessment and model linkages

CONCLUDING SESSION
Modelling for policy, main messages and the way forward

break

11
00

SESSION 1
Ensuring model quality

SESSION 3
Scenarios and data

SESSION 4
Modelling complex systems for policy

SESSION 7
Using model related evidence for policy: processes and experiences

POSTER SESSION

lunch break

13
30

SESSION 2
Transparency of models and their use

TRAINING 1
Social multi-criteria evaluation (SMCE) for ex-ante impact assessments

SESSION 5
Assessing and communicating uncertainty in model results

TRAINING 2
An introduction to SIML@B: an online EC tool for global sensitivity analysis of models

SESSION 8
Combination of qualitative and quantitative methods

14
50

CONTRIBUTED SESSION 1
Co-design of modelling-based services for climate change adaptation related policy support under the EU DestinE Initiative

WORKSHOP 2
We need to talk about models

CONTRIBUTED SESSION 2
Modelling for the Banking Union

CONTRIBUTED SESSION 3
Climate change adaptation modelling as a tool for decision-making support

SESSION 9
Communication and visualisation of model results

break

16
30

WORKSHOP 1
Leveraging multidisciplinary tools and approaches for achieving the SDGs

WORKSHOP 3
Strategic Foresight and quantification link for better future-oriented policymaking

WORKSHOP 4
Human models for human policies

WORKSHOP 5
Impact By Design: How to create social science models that effectively address policy needs?

CONTRIBUTED SESSION 4
Highlights from the EU Open Data Days: how open data can support policy-making

18
00
