|                                      | Regional/Provincial Program (Regional Council of Central Ostrobothnia)   |
|                                      | Strategy for North Finland (Regional Councils of North Finland)  |

#### **Biovalley region in Central Ostrobothnia**

Biovalley is a region of strong expertise in the natural resource sector and bioeconomy in the Kalajokilaakso, Lestijoki-laakso, and Perhonjokilaakso river valley areas as well as in the sub-region areas of Kokkola and Pietar-saari. There are approximately 183.000 inhabitants, i.e. about 3 % of the country's population, but approximately 17% of the Finnish milk, 22 % of the Finnish food potatoes, 13 % of the Finnish wooden house production, 10 % of the Finnish pulp production and 9 % of the Finnish forest chips are produced here, among other things. Additionally, 46 % of the Finnish fur production farms are located in the region. The region lives strongly and diversely from the bioeconomy. In addition to agriculture and forestry, there is strong natural resource sector business activity in food industry, wood processing industry, building carpentry industry, bioenergy and in the manufacture of equipment, as well as in chemical industry. The diverse business activities are supported by research- and development organizations and educational organizations, which provide companies with the latest research information and skilled personnel. ([www.biolaakso.fi](http://www.biolaakso.fi))

## REGIONAL BIOECONOMY RELATED POLICY INITIATIVES

- ✓ The Finnish national Forest Industry Future Cluster programme 2007 – 2011; Central Ostrobothnia responsible for forest chemistry and novel products competence area.
- ✓ Natural (non wood forest products) products development programme and innovation network 2011-2014.
- ✓ A Finnish-Chinese cooperation agreement in 2012 for the promotion of: food and bio based products-- Business opportunities for SME's.
- ✓ EU – China biomass based health products promotion as a part of EU-China food, agriculture and biotechnology LOI(A preparatory action proposal for European Parliament).

---

## ADDITIONAL REGIONAL POLICY INFORMATION

- ✓ Animal production (cows and fur animals) is considerable in the Central Ostrobothnia region. This means also huge amount of animal manure ensuring potential to biogas production. Starting biogas production from animal manure is most potential with fur animals (MTT, Luova Oy)

## ***R&D Programmes in Bioeconomy***

### ***EUROPEAN R&D ACTIVITIES in Bioeconomy (year 2007-2013)***

Kokkola University Consortium Chydenius is acting under the auspices of three universities, including University of Oulu. By this connection researchers are involved in Bio-based Industries Consortium, which brings together European large and small companies, clusters and organisations across technology, industry, agriculture and forestry.

### **Examples of EU bioeconomy R&D projects involvement, including region Keski-Pohjanmaa**

[Ecogel Cronos 2013 – 2016](#) (Technology Center Ketek): High productivity manufacturing process for composite parts  
[inanotool 2013 – 2015](#): EULIFE+ (Technology Center Ketek).

## Participation in other EU bioeconomy R&D projects:

|   |  |                                |
|---|--|--------------------------------|
| <b>EU regional development funding (ERDF)</b> | Biovalley Feasibility Study 50,000 EUR<br>Chemplant 504,000 EUR<br>Interreg Botnia-Atlantica projects 1,5 M EUR<br>Interreg Nord 1,1 M EUR | EC Contribution<br>3.154 M EUR |
| <b>EU rural development funding</b>           |  | EC Contribution<br>4.2 M EUR   |

## NATIONAL/REGIONAL R&D Activities in Bioeconomy (year 2007-2013)

In addition to r&d projects, Kokkola University Consortium Chydenius participate in networks to find new partners and information to support companies in the region. For example, during year 2014 professor Ulla Lassi (University of Oulu/Kokkola University Consortium Chydenius) is leading Bioeconomy research community Oulu (BRC - Oulu). Bioeconomy research community Oulu is a joint venture of active research groups within the domain of biomass conversion and valorization value-chain. The research community is engaged in national and international research programs and organizations supporting its agenda and continuously looking for new partnerships within bioeconomy-related topics of transnational significance.

## Listing of Regional Bioeconomy Research Programmes

### Natural products development programme and innovation network 2011-2014

Ecogel Cronos 2013 – 2016 (Technology Center Ketek): High productivity manufacturing process for compo-site parts, total budget 4,3 M €, Ketek share around 300 000 €

inanotool 2013 – 2015: EULIFE+(Technology Center Ketek) 265 529 €, of which EU-funding share 132 765 €

Natural Products 177 000 €

### National funding / Metla projects:

- Efficient wood acquisition logistics as part of the value chain (Tehokas puunhankintalogistiikka osana ar-voketjua) 2014–2017. 72 000 €. Funded by Metla/LUKE
- Proven woodbiomass delivery chains from forest to end users. 2012 – 2016. 160 000€. Funded by Metla/Luke
- Stimulus environment for bluefox. 2013-2016; 50.000 euroa rahoittaja STKL
- Wellbeing of bluefox by various Ca:P diets. 2013-2015; 88.000 euros funded by STKL

### International funding/ Metla projects:

- WoodBio - Wood biomass in the Nordic Bioeconomy. 2014-2017. Metla/Kannus share around 45 000€. Funded by the Nordic Council of Ministers.
- RIFABILITY- Work related low-level muscle activity as Risk Factor to Disability in high technological environments. 2012-15. Metla/Kannus share 37 000€. Norwegian Research Council.

Woodbiomass intensive production 2011- 2014: 300 000 €/a. Financed by Metla

Energywood intensive production principles and actions 220 000 e. Financed by Vapo oy

Bull Berry Oy beverage manufacturing company's Lamica project 2010-2012 267,000 € + investment loan 186,000 €. Financed by Tekes

---

**Table 2. Examples of "some" quantitative data that may possibly be available for "some" bioeconomy sectors**

Info source: Region

| Biomass production sectors                                     | Enterprises number | Employment number | Turnover M EUR | Value added M EUR |
|--|--------------------|-------------------|----------------|-------------------|
| Agriculture (incl. Fur sector)                                 | 1419 (yr2011)      | 2685 (yr2011)     | 390 (yr 2011)  | N.A               |
| Forestry   | 110 (yr 2011)      | 1150 p/y          | 50 (yr2011)    | N.A               |
| Marine   | N.A                | N.A               | N.A            | N.A               |
| Aquaculture  | 13 (yr2011)        | 60 (yr2014)       | 51             | N.A               |
| Waste  | N.A                | N.A               | N.A            | N.A               |
| Biomass conversion sectors                                     | Enterprises number | Employment number | Turnover M EUR | Value added M EUR |
| Food/Feed  | 52                 | 1250 p/y          | 336            | N.A               |
| Energy   | N.A                | N.A               | N.A            | N.A               |
| Industrial incl.<br>- Paper<br>- Wood<br>- Chemicals<br>- .... | N.A                | N.A               | N.A            | N.A               |

## GENERAL INFORMATION

### **Main/Regional economic and social indicators**

Info source: Stat.Finland

#### **REGIONAL DEMOGRAPHY (2013)**

|                         |                               |  |
|-------------------------|-------------------------------|--|
| Number of inhabitants   | people                        | <b>68659 p</b>   |
| Population by age group | Share of total population (%) | <b>N.A %</b> (<25)<br><b>N.A %</b> (25-64)<br><b>N.A %</b> (>64) |

#### **REGIONAL ECONOMY (2011)**

|              |   |                            |
|--------------|---|----------------------------|
| GDP          | M EUR   | <b>2263 M€</b>             |
| GDP per head | Euro per inhabitant                                 | <b>33000 €</b>             |
| GDP per head | Euro per inhabitant in percentage of the EU average | <b>N.A.</b><br><b>N.A.</b> |
| GDP PPS      | Euro per inhabitant                                 | <b>N.A.</b>                |
| GDP PPS      | Euro per inhabitant in percentage of the EU average | <b>N.A.</b>                |

#### **REGIONAL ECONOMY STRUCTURE (2010)**

|   |                             |                                |
|---|-----------------------------|--------------------------------|
| Agriculture weight in the economy             | % of GVA<br>% of employment | <b>6.4 %</b><br><b>9 %</b>     |
| Industry & construction weight in the economy | % of GVA<br>% of employment | <b>30 %</b><br><b>22.3 %</b>   |
| Services weight in the economy                | % of GVA<br>% of employment | <b>63.7 %</b><br><b>67.6 %</b> |

#### **REGIONAL SOCIAL**

|                                   |   |               |
|-----------------------------------|---|---------------|
| Employment rate, aged 20-64       | % of population,<br>aged 20-64                | <b>N.A %</b>  |
| Unemployment rate                 | % of the active population                    | <b>11.2 %</b> |
| Unemployment rate of young people | % of the active population less than 25 years | <b>2 %</b>    |

## **Symbols, Units, Acronyms used**

---

**%** Percentage  
**N.A.** Not Available  
**T.B.C.** To Be Confirmed

**p** People  
**EUR** Euro  
**Bn** Billion  
**M EUR** Million Euros

**FP6** Sixth Framework Programme  
**FP7** Seventh Framework Programme  
**H2020** Horizon 2020  
**R&D** Research and Development  
**KBBE**  
**ERDF** EU regional development funding

**GDP** Gross Domestic Product  
**GDP PPS** Gross Domestic Product in Purchasing Power Standards  
**GVA** Gross Value Added
