

# THE EUROPEAN COMMISSION'S KNOWLEDGE CENTRE FOR BIOECONOMY

Global challenges, such as climate change and land and ecosystem degradation, coupled with growing demands for food and energy, force us to find new ways of producing and consuming.

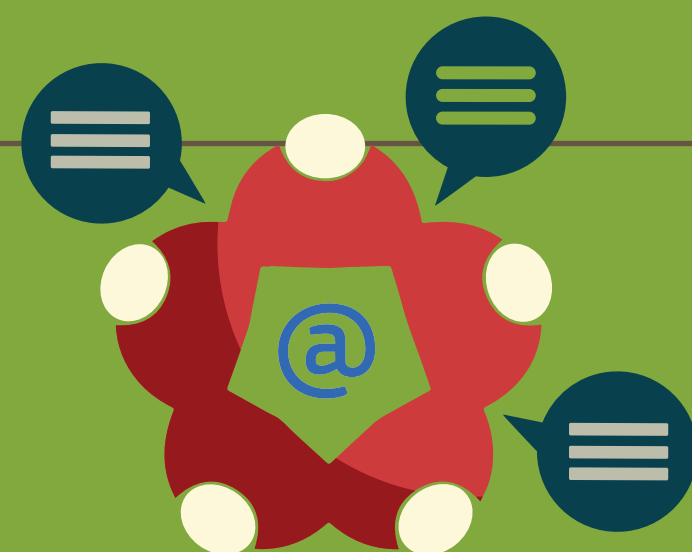

© European Union, 2018

A sustainable and circular bioeconomy needs coherent, evidence-based policies, across sectors, enabled by a common and robust knowledge base. Here is where the European Commission's Knowledge Centre for Bioeconomy comes into play.

Identifying and **filtering** relevant information and making it accessible:

Bringing together **researchers, policymakers** and other **experts** in the field.

## KNOWLEDGE CENTRE

Analysing, **synthesising** and **communicating** available evidence.

Enhancing the **knowledge** base for policymaking.
